> SELECTED IMPACT

biweekly → continuous frontend release cycle · Chaiz
+50% development speed after Tailwind CSS adoption · Chaiz
1 week → 2 days deployment time · spaceOS
1 week → 3 days new-project bootstrap · Neti-Soft
9 engineers frontend team led, mentored and onboarded · spaceOS
97% at 6% of the cost EU-hosted open model vs Claude in a 10-model eval · CyclingHero

> ABOUT

Frontend Architect with 10+ years owning architecture from greenfield setup through migrations and developer-experience overhauls. Happiest where domain complexity meets frontend craft.

core stack: TypeScript · JavaScript · React · Next.js · Tailwind · Astro

> WORK EXPERIENCE

Lead Frontend Developer · Chaiz

Mar 2025 — present · Remote

- Architect and build new modules for an automotive warranty / service-contract platform.
- Lead the codebase's architectural modernisation and roll out current frontend practices.
- Reworked the frontend release cycle from biweekly to continuous delivery.
- Drove Tailwind CSS adoption, increasing development speed by at least 50%.

TypeScript · React · Tailwind CSS

Frontend Architect & Team Lead · Neti-Soft

Jan 2024 — Feb 2025 · Rzeszów

- Architected and built new client projects, translating client requirements into technical scope.
- Led the frontend chapter, upskilling teammates and balancing workloads across projects.
- Unified coding standards and toolchain, cutting new-project bootstrap from 1 week to 3 days.
- Designed and built a B2C payment system for a marketplace application.

TypeScript · React · Next.js · Angular · Tailwind CSS

Global Customer Engineering Manager · spaceOS

Sep 2022 — Jan 2024 · Warsaw

- Led a multicultural team across EU / USA / AU time zones after the Equiem acquisition.
- Turned the support team into customer engineers and streamlined their communication with engineering.
- Owned architectural changes to the localisation module and payment systems.

TypeScript · Angular · Node.js

Frontend Technology Lead · spaceOS

Sep 2021 — Aug 2022 · Warsaw

- Owned the frontend application architecture.
- Led 9 frontend developers; mentored and onboarded every new hire and set the code-quality bar.
- Automated management of a 12-language localisation system.

- Designed and implemented SEPA Direct Debit integration for the SaaS platform.
- Cut deployment time from 1 week to 2 business days by simplifying processes and clarifying ownership.

TypeScript · Angular · NgRx

> EARLIER ROLES

Senior Frontend Developer · spaceOS 2020 – 2021 — Delivered features across the SaaS platform's tenant- and operator-facing applications.

Senior Frontend Developer · Neti-Soft 2018 – 2020 — Migrated a legacy jQuery application to Angular, built a wallet-based payment system for charity fundraising, and introduced mobile-first design to the team.

Software Developer · Eshare 2016 – 2018 · **Software Developer · Petrosoft.pl** 2014 – 2016

> FREELANCE & CONSULTING – SINCE 2019

CyclingHero + Admin 2022 · cyclinghero.cc

Tour-booking site, a metadata-driven admin form engine, and an LLM document import that turns tour brochures into itineraries, with the model picked by a 10-model eval.

Next.js · React · TypeScript · TanStack Query · Claude · LLM evals

Murako 2026 · murako.pl

Marketing site for an architecture studio, with an editorial CMS workflow.

Astro · React · Tailwind CSS · Keystatic

> SIDE PROJECTS

Przepisnik 2024 · przepisnik.app

A recipe book for home bakers, with one TypeScript codebase across iOS, Android and web.

Turborepo · React Native · Expo · Vite · PocketBase

Sovereign Stack 2026

Self-hosted platform for every side project, with change-aware CI/CD, encrypted backups and disaster recovery.

Docker Compose · Caddy · PocketBase · PostgreSQL · GitHub Actions

Nightride FM · Lull 2026 · github.com/tplocic20/nightride-fm

Native audio apps. Synthwave-radio clients for macOS, iOS and Android, and an offline sleep-sound app for iOS (pre-release).

Swift · SwiftUI · AVFoundation · Kotlin · Jetpack Compose

> SKILLS

LANGUAGES TypeScript · JavaScript (ES2015+) · HTML · CSS · Swift · Kotlin

FRONTEND React · Next.js · Angular · NgRx · Astro · React Native · Expo · SwiftUI · Tailwind CSS · TanStack Query

AI LLM integration · tool calling · eval-driven model selection · Claude · EU-hosted open models

TOOLING & DATA Node.js · Bun · Vite · Turborepo · GitHub Actions (CI/CD) · Docker · PostgreSQL · PocketBase

PRACTICES Frontend architecture · performance · code review · automated & manual testing · cross-platform development · mentoring

> EDUCATION

BS in Computer Engineering · Rzeszów University of Technology

Oct 2012 – Jun 2016 · Rzeszów
